FINAL ACTION

Applicant's amendment has been fully considered. The amended claims have overcome the previous rejections of 112/1st and 2nd paragraphs, and 101 by deleting rejected limitations and/or claims. New claim 16 is an improper multiple dependent claim, and new claim 20 presents new matter.

Claim 13 is cancelled. Claims 16-22 have been added. Therefore, pending claims are 1-12, and 14-22.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Lack of Written Description: Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 20 recites R³ as a 3-morpholinopropoxy, which does not have support in the specification. The specification defines R³ as -OC₁₋₅alkylR⁴², and it is R⁴² that can be 3-

morpholinopropoxy. Therefore, to recite R³ as 3-morpholinopropoxy would not be inconsistent with the definition in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. **Lack antecedent basis:** Claim 2 recites the limitation "or combination thereof" in the definition of R¹⁶. There is insufficient antecedent basis for this limitation in the claim because R¹⁶ in claim 1 does not include said limitation.
3. Claims 3 and 4 are rejected as being dependent on claim 2.

Claim Objections

4. Claims 1-12, and 14-22 are objected to because of the following informalities:
compound claims contain parenthetical phrases. If applicants intend the subject matter to be a part of the claims, it should not be separated out via parenthesis. Appropriate correction is required.
5. Claims 16-22 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claims in the alternative only. In the instant case, claim 16 depends on claim 10, but also refers to claims 1 and 6. Claims 17-22 depend on claim 16, and thus, they are also improper multiple dependent claims. See MPEP § 608.01(n).

Art Unit: 1624

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
